November 25, 1977

Mr. Muril D. Vincelette
Energy Fuels Corporation
Suite 445, Three Park Central
1515 Arapahoe,
Denver, CO. 80202

Dear Mr. Vincelette:

On November 16th 1977, personnel from the Division of Oil, Gas, and Mining inspected one of several uranium mines in the Farmers Knob area of Garfield County, Section 6, Township 33 South, Range 12 East, and talked with a Mr. Hal Harper about one particular operation.

During our visit, we noted that the particular operation appeared to be less than two (2) acres in size. Therefore, it would be exempt from the Utah Mined Land Reclamation Act of 1975 as provided for in Section 40-8-4(6), and a Declaration of Exemption, MR-4, would have to be filed. Mr. Harper informed us that he thought the Declaration had been filed, but was not sure of the exact mine under which it had been filed. The names he mentioned were Farmers Knob Mine, Blitz Mine, Trachyte #3 Mine, and the Straight Creek Mine. He also mentioned that Associated Energy Corporation had an interest in the mine.

After checking our files, we found that no Declaration of Exemption had been filed for that operation.

We contacted Mr. Harold Lish of Associated Energy in Salt Lake City, and he informed us that Energy Fuels held the options on the mine and suggested that we get in touch with you.

Should Energy Fuels be the responsible party for this mine, or any other mine within the State of Utah of which we may be unaware, it would be greatly appreciated if the appropriate forms were filed with this office as soon as possible.

You will find copies of the required forms, as well as a copy of the Mined Land Reclamation Act, enclosed. If you should have any questions or need any additional forms, please feel free to call. Thank you for your cooperation.

Sincerely,

James W. Smith, Jr.
Soil Reclamation Specialist
